msg.ProfileMap
Transformation into a
skills-based organization

AMAI speeds up their internal staffing process by using msg.ProfileMap on AWS

msg.ProfileMap

msg group based in Germany offers the competence management and workforce transformation platform. msg.ProfileMap to speed up internal staffing processes for upcoming projects. The centerpiece of the solution is an ontology platform built on Amazon Web Services (AWS) using Amazon Neptune. msg.ProfileMap connects over 30,000 skill terms to represent the real-world competence of companies.

AMAI

msg.ProfileMap helps us to easily maintain employee profiles. The profiles can also be exported and professionally prepared in no time at all. This allows our partners to quickly find individuals with urgently needed skills. Projects can thus be staffed effortlessly and efficiently with the most suitable resources using msg.ProfileMap.

Reduced effort in creating customer optimized candidate profiles

Faster internal staffing process for upcoming projects

Competencies and profiles can now be found more **easily** by partners.

Simplified maintenance of employee profiles

We will be happy to help you so that you have more time for your customers. Get in touch with us:
